

Floodlight

Tariff Code	Description	Output (lumens)	Cost*
107	200 Watt HPS	22000	\$13.10
109	400 Watt HPS	50000	\$17.06
110	250 Watt MH	20500	\$15.27
116	400 Watt MH	36000	\$18.39

Kentucky Power will provide and mount a light on an existing pole with open truck access from a driveway or roadway.

APPLICATIONS:

These directional fixtures can be aimed to project the light where it is needed. Applications include industrial sites, auto dealerships, storage areas, shopping centers, parking lots, entrance ways, recreational areas, and other locations where our dusk-to-dawn security lights may not meet the requirements. The Metal Halide lamps are ideal for commercial applications since their excellent color rendition calls attention to storefronts, automobiles and advertisements.

Customers who want to add a light to their property should call 1-877-816-4237, Monday to Saturday, 7 a.m. to 7 p.m. Costs are before taxes and any possible facility charges for installation.

Post Top Light

Tariff Code	Description	Output (lumens)	Cost*
111	100 Watt HPS	9500	\$14.05

Kentucky Power will provide and mount a light on an existing pole with open truck access from a driveway or roadway.

APPLICATIONS:

Both ornamental and functional, these stylish lamps are mounted on 14-foot posts and add a nice touch to residential streets, office complexes, campuses, parks and hotels. Typically used on walkways, energy-efficient 100 watt lamps and diffuser panels produce a low-glare illumination centered on the post.

Customers who want to add a light to their property should call 1-877-816-4237, Monday to Saturday, 7 a.m. to 7 p.m. Costs are before taxes and any possible facility charges for installation.
