

Open Bottom Security Light

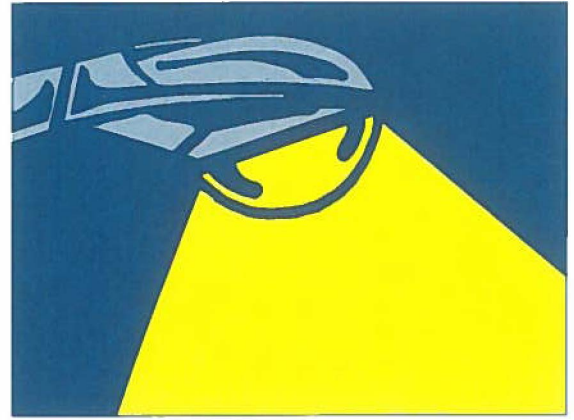

Tariff Code	Description	Output (lumens)	Cost*
094	100 Watt HPS	9500	\$8.51
113	150 Watt HPS	16000	\$9.31

Kentucky Power will provide and mount light on an existing pole with open truck access from a driveway or roadway.

APPLICATIONS:

A circular light pattern centered on the pole makes this fixture suitable for general residential use, security areas, storage yards, and loading/receiving areas. These lights are normally mounted on three-foot arms. The 150 watt unit is our most highly recommended for value and versatility.

Customers who want to add a light to their property should call 1-877-816-4237, Monday to Saturday, 7 a.m. to 7 p.m. Costs are before taxes and any possible facility charges for installation.

Enclosed Security Light

Tariff Code	Description	Output (lumens)	Cost*
098	400 Watt HPS	50000	\$16.01

Kentucky Power will provide and mount light on an existing pole with open truck access from a driveway or roadway.

APPLICATIONS:

Designed to cast an elongated light pattern primarily on one side of the pole. Ideal for roadways, parking lots, shopping centers, and apartment complexes. With the six-foot upswept arm, the pole can be set out of the way of vehicles, and the wide light pattern allows for greater roadway spacing. An enclosed lamp provides protection from vandalism.

Customers who want to add a light to their property should call 1-877-816-4237, Monday to Saturday, 7 a.m. to 7 p.m. Costs are before taxes and any possible facility charges for installation.
